

## **COUNCIL WELCOMES NEW STAFF TO THE ENVIRONMENTAL SERVICES DEPARTMENT**

Walgett Shire Council has welcomed three new staff members to the Environmental Services Department; Kimley Talbert, Caitlin Mahony and Joshua Ruttley.

Kimley has commenced in the role of Senior Health and Building Surveyor, Caitlin has taken up the position of Town Planner and Joshua has filled Council's new role of Landfill Attendant.

Kimley has a distinguished and extensive career in Local Government spanning 50 years and has demonstrated his commitment being to community-focused and customer-driven.

"I feel extremely privileged to be working for Council and the Walgett Shire Community and I thank Council for its confidence in appointing me, said Ms Mahony.

Joshua has expressed his excitement to be working with colleagues and the community to ensure that we are as efficient and effective as we can be, in particular with the management of the landfills. On a personal note, Joshua said "I am thrilled to working for my local Council and contributing to my home town".

Council's General Manager Michael Urquhart congratulated the trio on their respective appointments. "I believe the knowledge, experience and enthusiasm of our new staff members will be a real asset to our team here at Council," Mr Urquhart said.

I would ask the residents of the Walgett Shire to welcome and embrace our new team members and the changes that will flow from their contributions and leadership.
