

## **NOTICE TO RESIDENTS WALGETT RAW WATER AT CRITICAL LEVEL**

As you are aware Walgett is experiencing unprecedented water shortages. Due to the critical lack of RAW water in Walgett, Walgett Shire Council wishes to advise all residents of Walgett that the RAW water will be turned off between 9am to 5pm each day, commencing Thursday 20<sup>th</sup> December 2018 until further notice.

Despite the recent switch to the bore water supply, the reservoir is unable to keep up with demand.

Walgett is still on level 5 RAW WATER RESTRICTIONS and the restrictions will remain in place until further notice. Council will continue to monitor the situation and hopefully be able to lift the RAW water restrictions in the near future when sufficient rainfall occurs.

Should you require further information please contact Council's Engineering / Technical Services Division on 6828 1399.
